Test Assignment

UI/UX Designer

Instructions

- **Please note that we will review each part of your project. So even if your project is not fully completed, please submit it before the project deadline.** ● Submit a Figma link with your works which must include (but not limited to): ● User Journey
    - App Screens
    - A small description of (The design decisions and problems it solved)
- You need to email your project's Figma URL to the following address:

    palash900202@gmail.com

Project Description

TimeCraft is a feature-rich mobile app tailored to enhance time management, focus, and productivity. Designed with versatility and user engagement in mind, the app offers a dynamic platform that helps users efficiently plan, execute, and track their tasks while staying motivated through gamified elements.

Key Features
Advanced Task Planner:

- Seamlessly create, organize, and prioritize tasks with deadlines for effective time management.
- Set recurring tasks, reminders, and categories to customize your workflow.

Smart Pomodoro Timer:
- Leverage a timer based on the Pomodoro technique with customizable work and break intervals to boost focus.
- Access detailed session history to track focus time for each task.

Enhanced Productivity Analytics:
- View intuitive charts and insights into daily, weekly, and monthly productivity.
- Identify trends, time-draining activities, and top-performing tasks for continuous improvement.

Achievement Badges and Rewards:
- Unlock badges and rewards for completing tasks, meeting deadlines, and maintaining focus streaks.
- Incorporate gamification to keep the user experience engaging and motivating.

Profile-Based Customization:
- Students Profile: Organize study schedules, assignments, and exam preparations with ease.
- Professionals Profile: Manage work-related tasks, deadlines, and meetings with advanced tools.
- General Users Profile: Adapt the app's features to suit personal productivity goals and daily routines.

Target Audience

TimeCraft is designed for:
- Students: Simplify planning for academic tasks and exams, empowering students to stay on top of their schedules.
- Professionals: Streamline work-related tasks, deadlines, and meeting schedules to enhance workplace productivity.
- General Users: Provide a versatile productivity tool for anyone seeking to improve time management and achieve personal goals.
